

Play4mance Sports

@ Top Corner Sports

Winter 2018-19 Classes

Play4mance SPORTS: Bringing sports back to the way it should be! The Program provides a Fun, Exciting, and Unique environment created to give children (3-7 years old) the opportunity to fall in love with sports and learn the fundamentals of the games. Each fun-filled class will be packed with age appropriate games, skill building activities, and drills that will introduce children to various sports such as baseball, football, and soccer.

"Top Corner Sports staff prides itself on its safety, learning and enjoyment!"

Beginner Phase For 3-4 years

Building a solid foundation and love for individual sports using unique and exciting coaching techniques to develop base fundamental skills and coordination, as well as learning key terms and gameplay for the specific sport. The Beginner phase is an important 1st step for any child showing interest in sports "a great first experience can be a great start for the future."

Foundation Phase For 4-5 years

Players who have a basic knowledge and development of fundamental skills will be introduced to more technical aspect of the specific sport, gearing them up for live game play. Drills and activities used by high skilled players will be introduced, with a high focus on proper technique and constant repetition to train young players successfully advance to the next level of their athletic future.

Development Phase For 5-7 years

At this level players are beginning to develop individual strengths and weakness', which our trained coaches will be able to target and enhance throughout each session. Tactical information will begin to be introduced through structured live game play scenarios, delivering the mental aspects of the game.

Two Great Winter Season Options!!

Season 1: Dec 1st - Jan 30th

Season 2: Feb 2nd - Mar 28th

\$160.00 per season (for 8 weeks)

Midweek and Weekend class options available.

The **PLAY**...the **4**...and the **MANCE**:

Bringing sports back to the way it should be - Age-appropriate **PLAY** and social skills building.

Our programs are 4 them! "player centered".

The perfor**MANCE**- teaching youth athletes the importance of fundamental sports skills, as well coordination, balance, and movement.

Baseball: Starting at the beginner phase to the development phase, players are trained at their age appropriate level at all aspects of the game from batting to base running and everything in between. Highly Trained coaching staff in both child development and baseball will be covering all the bases in each session using a fast pace station format which limits "stand around time" and increases attention and learning for each player, no matter past experience.

Football: Providing kids with the fundamental skills and knowledge needed to play and understand the game of Football in a positive and safe environment. Curriculum based programs packed with fun, exciting, and informative drills and activities for each developmental phase, which will eventually progress into live game action.

Soccer: Our Soccer program offers a fun-filled atmosphere to introduce your child to the *beautiful game*! The age appropriate and progressive curriculum provides a solid foundation for players to build on. Classes focus on developing motor and listening skills, introducing fundamental ball skills while exposing participants to a great social environment. Coaches lead fun activities with and without the soccer balls and utilize appropriate props and equipment to keep players engaged.

Multi Sports: Introducing young future athletes to new and exciting world of sports, focusing on skills and game related activities for baseball, flag football, and soccer.
